March 11, 2020

Dear Parents:

We have received information from the Pennsylvania Department of Health regarding the Coronavirus COVID-19 and wish to share resources that may help prevent the spread of the virus in the event of an outbreak in the area.

Coronaviruses are a large family of viruses that are common throughout the world. Human coronaviruses spread just like the cold or flu. As with many viruses, the COVID-19 is spread through the air or close personal contact.

Prevention for the COVID-19 includes typical prevention activities including:

- Washing your hands frequently with soap and water and/or using alcohol-based hand sanitizer
- Refraining from touching the face, specifically the "T-zone" area (eyes, nose, and mouth)
- Covering coughs and sneezes with your elbow
- Stay home until you are fever-free (without Tylenol or Motrin) for 24 hours
- Avoiding people who are already sick

Please review several resources from The Pennsylvania Department of Health about the Coronavirus COVID-19:

<https://www.health.pa.gov>
